Is used to irrigate crops sold in interstate commerce?				X	

¹Check appropriate boxes that best describe potential for applicability of the Migratory Bird Rule to apply to onsite, non-jurisdictional, isolated, non-navigable, intra-state aquatic resource area.

TYPE OF DETERMINATION: Preliminary Or Approved X.

ADDITIONAL INFORMATION SUPPORTING NJD (e.g., discussion may include information reviewed to assess potential navigation or interstate commerce connections - 1 to 3 paragraphs): An application was received to discharge fill materials in 0.012 acre of wetland to construct a subdivision access road. The information included with the application describes the wetland as an "isolated wetland" dominated by reed canary grass and stinging nettle. A review of aerial photography from 1970, 1980, 1990, and 2000, the Waukesha County soil survey, and the USGS Hartland, WI quadrangle verified the applicant's determination that the impacted wetland is isolated. The map and air photo resources failed to identify a surface water connection between the wetland and Pebble Creek. Furthermore, the subject wetland lacks a connection to interstate commerce and is not adjacent to a water of the US. The construction of the road would impact the entire wetland.

The 31.4 acre parcel also contains Pebble Creek and adjacent wetlands. These waters will not be impacted by the project.
